

ACI Heavy Duty Deluxe Mining OTR Service Body

Call or visit our website TODAY for all the information as to why this HD OTR body will stand the test of time.

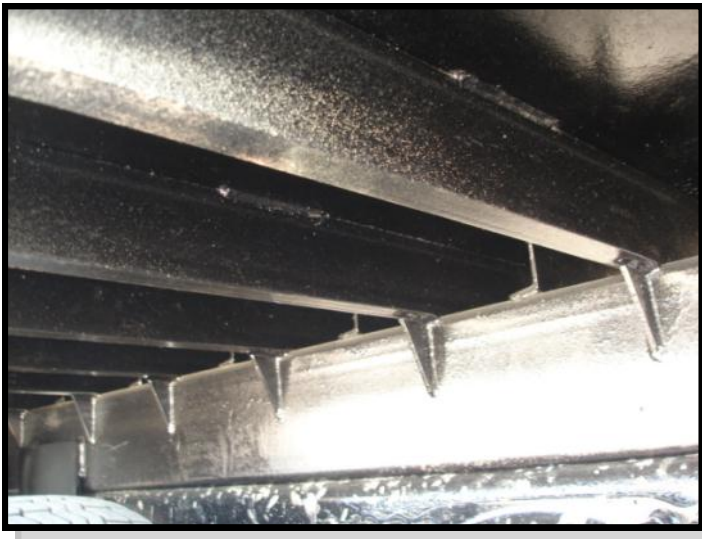

- Special drop box in front section with fold-down gate for storage of blocks.
- Heavy Duty headache rack with work lights, 6-underbody tool compartments and one underbody air compressor compartment.
- Recessed light pockets in each wheel well skirt, 3/4 inch air drain valve assembly located in left rear skirt, 1/4 inch deck plate with heavy duty cross members and long sills.
- All compartments are equipped with aluminum slide top doors with slam locks, ICC lighting system with wiring harness, D-ring tie downs on top and under center area of body.
- Painted white.

Underbody air compressor compartment will accommodate a Champion Model R70A Hydraulic-driven system, producing 110 CFM @ 175 PSI.

Drop box in front section with fold-down gate for storage of blocks and easy access to bed, with grab handle, and grip step.

Shown with three Rollout Drawer Set, 11" x 16" wide x 18" deep. Plywood in All Underbody Compartments. Chain & Binder Rack 27" long.

ACI Heavy Duty OTR service bodies include:

Double undercoating—body deck is welded, turned over and undercoated; compartments are attached and undercoated again. This provides undercoating in areas around the compartment boxes that other companies don't reach.

Each cross member is gusseted for extra strength; cross members face forward to limit places for dirt to gather, and additional cross members are added between the long sills for center strength.

Items shown:

- Three rollout drawer set, 11" x 16" wide x 18" deep
- Recessed mounted compartment lights
- Plywood in All Underbody Compartments
- Two Socket Trays, 22" long, Paint—Black Powder
- Half shelves in all tool boxes

ACI offers you options others don't: new, used, or rebuilt to meet your budget. We are your service partner in the OTR tire market.
