

ACI 20017 Crane—w/ Model 90134 Hand

ACI Super Premium 20017 Crane, 200,000 ft. lb. Crane, rated to lift 24,000# @ 8', and 11,500 # @ 17', 36.00-51 maximum recommended tire to be handled with crane and hand combination. 15' fold-over outrigger span, turntable bearing rotation system with an integral-mounted mechanically-applied, hydraulically-released brake system. All components of this crane are new with the exception of the base and outrigger components. Painted Red.

Positive pilot-operated load-holding counterbalance values on the inner, outer, extension, and outrigger cylinders increase load holding security and operate only on command. Special ACI outrigger cylinder rod protectors. Painted red.

Radio Remote Control system, 7-paddle transmitter with MHR receiver with harness to valve, carrying strap, 12-24 VDC battery charger kit, 2 spare transmitter batteries, Model MHR radio receiver with external whip antenna, 10 foot radio receiver output cable with ends to connect to valve. Emergency shut down system. Single manual controls at crane base.

New Champion Model R70A Hydraulic-driven system, mounted under body producing 110 CFM @ 175 PSI. Four cylinder two-stage industrial compressor special setup for underbody installation. ACI Hydro Oil Cooler MH 3. This is a self-contained hydraulic cooling system, which includes a 4-gallon reservoir, oil cooler, system relief, and return line filter. Designed to remove heat and minimize the temperature buildup to less than 40 degrees above ambient temperature.

New ACI Heavy Duty Model #90134 Hand: 9,000 lb. capacity, 340 degree hydraulic body rotation, 140 degree angle of articulation, clamping span of 38" to 134" with dual hydraulic rotating gripping pads, equipped with sliding cylinder rod guards, which protect the rods from damage. Heavy Duty yoke & link arm, 2.5" pin kit, bushings and yoke assembly, equipped with quick-change wear pads on all four sides of the sliding arms.

New ACI Heavy Duty Deluxe Mining OTR Service Body, 21 long, special drop box in front section with fold-down gate for storage of blocks. H.D. headache rack with work lights, 6-underbody tool compartments and one underbody air compressor compartment. Recessed light pockets in each wheel well skirt, 3/4" air drain valve assembly located in left rear skirt, 1/4" deck plate with H.D. cross members and long sills. Triangle gussets on each cross member and additional cross members in center area of cargo area. All compartments are equipped with aluminum slide doors with slam locks. ICC lighting system with wiring harness, D-ring tie downs on top and under deck. Painted red.

New ACI Super Charger, 2011 Model SC10A, 10,000 PSI Hydraulic single hose reel system for operating jacks and bead breaking tools. Complete with 4-gallon oil reservoir, auto temperature control system, radio remote, manual override toggle switch, variable flow control, oil site gauge. Hi-Pressure hose reel with 45 feet of hi-pressure hose with quick couplers. Splitter hose assembly with two hi-pressure shut-off valves and quick couplers. 12-volt thermostat controlled heater in oil reservoir.

Master Control Panel includes two PTO air shift switches so that you can engage PTO system standing on the ground beside the truck.

**ACI offers you options others don't: new, used, or rebuilt to meet your budget.
We are your service partner in the OTR tire market.**
